Please read these documents carefully before investing.

• Portfolio holdings are unaudited and subject to change and should not be considered a recommendation to buy or sell individual securities.

• You could lose money by investing in the Fund. Although the Fund seeks to preserve the value of your investment at $1.00 per share, it cannot guarantee it will do so. An investment in the Fund is not insured or guaranteed by the Federal Deposit Insurance Corporation or any other government agency. The Fund’s sponsor has no legal obligation to provide financial support to the Fund, and you should not expect that the sponsor will provide financial support to the Fund at any time.

• Weighted Average Maturity refers to the dollar-weighted average maturity of the Fund’s holdings, which for floating-rate securities with interest rate reset dates, uses the reset date as the maturity date. Weighted Average Life refers to the dollar-weighted average maturity of the Fund’s holdings and uses the stated maturity date rather than the reset date.

• The WAM Maturity Date reflects the maturity date of the security as determined under Rule 2a-7 under the Investment Company Act of 1940, as amended, for purposes of calculating the dollar-weighted average maturity. Generally the date represents the earlier of the next interest rate reset date or final legal maturity date. The WAL Maturity Date reflects the final legal maturity date of the security, if different from the WAM Maturity Date.

• Holdings information shown is based on the trade date. The fund also publishes its portfolio of investments in its annual and semiannual reports, as of each month end on Form N-MFP, and at each fiscal quarter end on Form N-Q.

• The Fund’s Form N-Q and publicly available Form N-MFP filings are available on the SEC website at [www.sec.gov](http://www.sec.gov). To link directly to the Fund’s Form N-MFP filings on the SEC website, click [here](http://www.sec.gov).

Weighted Average Life refers to the dollar-weighted average maturity of the Fund’s holdings and uses the stated maturity date rather than the reset date.

The WAM Maturity Date reflects the maturity date of the security as determined under Rule 2a-7 under the Investment Company Act of 1940, as amended, for purposes of calculating the dollar-weighted average maturity. Generally the date represents the earlier of the next interest rate reset date or final legal maturity date. The WAL Maturity Date reflects the final legal maturity date of the security, if different from the WAM Maturity Date.
